We'd like to invite you to work with us at Flutgraben in a workshop on the inverse institution from September 23rd - 27th. We want to find out, test and publicize what's behind the approach of inverting the institution. And we would like to dedicate ourselves to questions that are important to all of us for a long time. In five days with physical exercise, joint breakfast, working groups, Inverse Institution inputs, check-outs, party and fortune telling.

We want to find out  
- how to build sustainable, collectively organized structures, which can also provide for us economically.  
- how we can practice solidarity between institutions, collectives and initiatives.  
- how we envision care-work, between, by and for self-organized artists and collectives.  
- how we can develop a new artistic subjectivity, that leaves the notion of the successful, independent and self-contained artist behind and encompasses the related, inter-dependent and attentive fields of our work.

- to what extent we wish to associate our various initiatives, groups, institutions, reading circles and collectives.  
What's your idea?

- what we do in case groups, projects and collectives end.
- how get over disappointments that we experience in collective contexts.

Tell us if you wish to participate, and/or wish to make propositions for the workshop

We are preparing a series of Inverse Institution inputs, but would like to offer three afternoons / time slots to work in parallel working groups on the topics above. What topics do you want to propose in addition, which issues are particularly important in your group? What have all of us long longed to have worked on?
